

The industry **leader** in **Safety, Service** and **integrity**

Versys is an Electrical, Instrumentation and Mechanical company providing complete construction, commissioning and maintenance services in Oil, Gas and Commercial sectors in both the US and Canada.

“

*You have a vision.
We'll help you get there.*

”

Our company is based on three core principles:

01 SAFETY

We are committed to the highest work safety for our clients. We consistently work to Maintain the upmost safety standards possible.

02 SERVICE

We have the right personnel and systems in place to support your project. We are confident that Versys is well positioned to meet your demands.

03 INTEGRITY

We make sure the job gets done right the first time - on schedule, under the highest quality and expectations possible, and within our clients budget.

“
*We believe real businesses
are built on relationships.
So we make building them
ours.*
”

We provide customer satisfaction through the quality of our services, ensuring your demands are met everytime.

Job Satisfaction

Industry Experience

Complete Solution

Superior Performance

Versatile Expertise

Customer Satisfaction

We are **excellent** at:

01 START UP, COMMISSIONING AND OPERATIONS

We offer pre-commissioning, mechanical completion checkout, commissioning, startup and initial operating activities and can provide the in-depth experience, procedures and personnel to prepare each unit to achieve a smooth startup.

02 CONSTRUCTION

We offer construction management services using consistent tools, systems and standards to safely deliver superior results, even in the most challenging environments.

03 INFRASTRUCTURE SERVICES

We build, maintain and provide comprehensive solutions for the infrastructure that delivers power, and any other services as required, to your project. We can set up what you need to get started or we can finish what it takes to be done.

04 OIL AND GAS INFRASTRUCTURE

We provide a comprehensive scope of oil and natural gas infrastructure services including transportation, logistics and construction. It's our goal to bring full engineering, procurement and construction (EPC) services to every project lifecycle.

“

Our focus is mainly on commercial and heavy industrial sectors, because that's what we do best.

By choosing to cater to specific areas in the industry, we have vastly improved on various policies and procedures throughout the years.

”

Over **30** years of
industry
experience

Looking to do a project?

We will assist you from start to finish with the quality you deserve.
